

where bright ideas meet big appetites

As the world grows, so does its appetite for more flavorful foods, cost-effective transportation, alternative energy sources and other essentials. So SPX is sharing its know-how and delivering customized solutions to a world hungry for ingenuity – from equipment that optimizes energy production to food process technology designed to meet the highest standards of efficiency. Where will our ideas meet your industry? Learn how we transform ideas into action at www.spx.com/ideas
